Om Khairnar

Web Developer

Subject: Application for Web Developer Position at

Digtinctive

I am writing to express my interest in the developer position at Digtinctive as advertised. With a Degree in computer science having experience in Front-end development and a passion for creating user experiences. I am excited about the opportunity to contribute to your team.

During my time at Groupon Technology, I honed my skills in building complex web applications creating reusable component libraries for maintaining consistency and integrating RESTful APIs to display dynamic data. I am particularly confident of my contribution to developing extensive front-end pages using Next.js and React for a web application.

I am eager to bring my expertise and enthusiasm for web development to Digtinctive and contribute to your mission of delivering innovative solutions to clients.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experiences align with the needs of your team.

Sincerely,

Om Anant Khairnar
